# Introduction

Renegade is a token that had its ownership renounced and given to the community upon its creation. This decentralization of power has allowed Renegade to flourish as a 100% community-driven project with markedly engaged holders and rapid growth on a daily basis. Released August 29, 2022 on the Ethereum Chain network, the Renegade project has been iteratively built and improved upon by volunteers within the community since its inception. Graphic designers, writers, web developers, influencers, marketers, data analysts, translators, and more have contributed their talents to help Renegade grow into an inspirational model of community-driven success. The project has become a unique social experiment in which the investors are integrated into the project both from a community and developmental standpoint. With so much progress achieved by its community in such a short amount of time, Renegade stands as a solid milestone in this progressive, exciting age of the Social Blockchain.

# Security

Renegade is safe by design. It is an ownership-renounced token and liquidity pool that is locked for 30 years. It is impossible to modify Renegades's contract, and it is impossible to pull liquidity from it. The team behind Renegade is a fully volunteer team. No presale was conducted, allowing for a fair launch. The ownership of Renegade was renounced upon its creation to a dead address. The Renegade Team consists entirely of community volunteers who are also invested in \$RENEGADE.

# Community Wallet

As a community-driven project with no dev wallets, the Renegade Team opted to create a community wallet that members can donate to in order to further build the project. The community wallet has multi-sig protection, making it so multiple people are required to approve any transaction. With the community wallet, we aim to raise funding for many causes for the Renegade project, including:

- WhiteBit Listing
- CoinTiger listing and promotion
- Indoex listing
- Hotbit listing

# Tokenomics

The tokenomics of Renegade are as follows:

- 10,000,000 initial total supply
- 200,000 max limit of RENEGADE per trade
- Taxes are 0/0

# Use Cases/Ecosystem

The volunteer software and web development team is constantly working to bring new utility to RENEGADE. Being only nine days old (launch date 08/29/2022), there are already a swap project released and more underway

-RenegadeSwap (Alpha)

-RenegadeTracker (W.I.P)

-RenegadeDao (Planned)

-RenegadeStore (Planned)

-RenegadeCharts (Planned)

-RenegadeFarms (Planned)

-RenegadeStop (Planned)

-RenegadeFund (Planned)

-RenegadeGames (Planned)

# Partnerships:

Renegade Community it's open to new partnerships and charity events, so we are happy to announce our new strategic partnership...

We are delighted to announce a strategic partnership with K0de ([www.k0de.io](http://www.k0de.io)), a well-known crypto project in the industry.

Based on this partnership, the Renegade community will be able to use the K0de tools for free. K0de will work closely with Renegade to develop their own platform and tools. This is just one of many strategic partnerships Renegade is working on, and we look forward to the future!

The Renegade Community will continue to work and create new features that will help people discover the crypto space and make it easy for anyone to join.

# Roadmap

## Phase 1

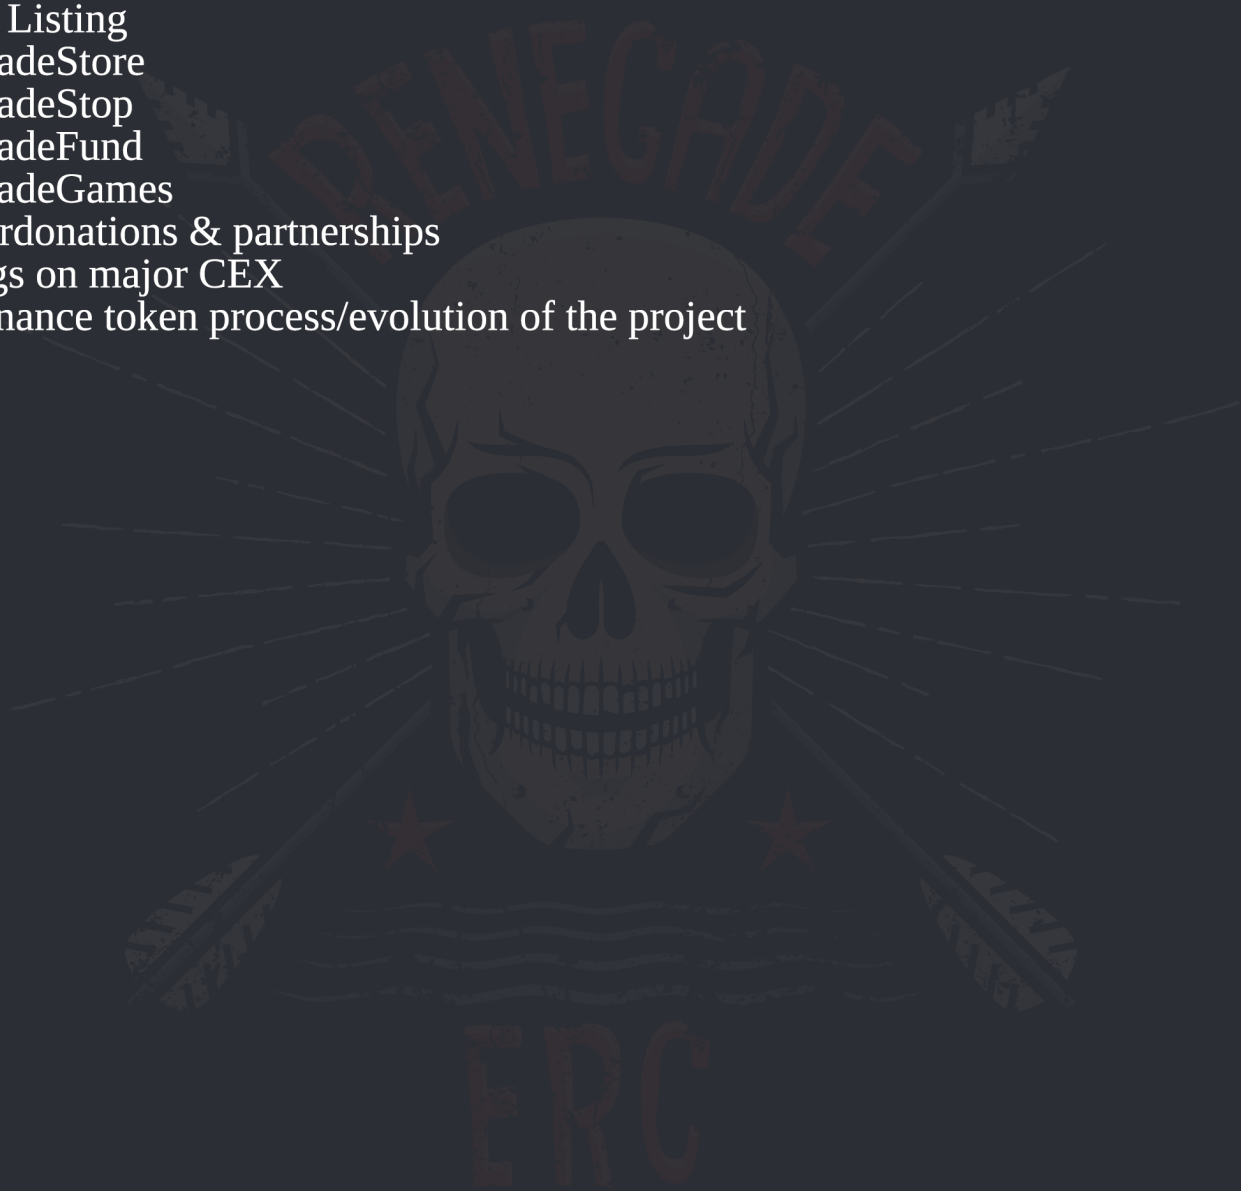

Website and branding  
Social media channels  
Add etherscan logo + social profiles  
Multisig community wallet  
Audit

## Phase 2

Listings on price tracking sites (CoinMarketCap, Coingecko...)  
Website redesign  
Donations  
Official Renegade NFTs and media  
RenegadeTracker  
RenegadeCharts

## Phase 3

WhiteBIT Listing  
Influencer and marketing funding  
RenegadeFarm  
RenegadeSwap  
Hotbit Listing  
RenegadeStore  
RenegadeStop  
RenegadeFund  
RenegadeGames  
Furtherdonations & partnerships  
Listings on major CEX  
Governance token process/evolution of the project

# Renegade Team

Because the ownership of Renegade was renounced upon creation, the Renegade Team is composed entirely of volunteers.

There are also various groups structured under the Renegade Team, including but not limited to :

- Administration
- Marketing
- Media
- Software/Web Development
